

CSFTA FT Winter League Shoot Rules 2023/4, v071123

For clubs

- CSFTA clubs that have provided evidence of insurance to the CSFTA Secretary are permitted to host CSFTA Winter League (WL) rounds.
- The event is a CSFTA event, however, the responsibilities for each individual event lays with the club hosting the event. The host club should nominate a Chief Marshal and appoint course marshals.
- The CSFTA, with agreement from the club representative will take a % of the takings to cover the purchase of trophies, for the 2023/4 WL this is set at £2 per shooter.
 - There will be 2x bonus bunny prizes of £10 each with a split 50/50 between CSFTA/Club. A 'Randomizer' phone app to select 2 people at random from signing in sheet on the day.
- WL shoots are open to CSFTA club members, the host's club members, and with the host's and CSFTA's Competition Secretary's approval to members of BFTA clubs from outside of the region. Note: it is a requirement for competitors to be members of a CSFTA club for their scores to count in the league either as an individual or as a team member.
- The CSFTA FT WL is run; to the BFTA Main Shoot Rules (MSR) which can be found on the [BFTA Website](#) and typically updated annually; all shooters and marshals should familiarise themselves with these rules.
- All shoots must start with a briefing, which must as a minimum confirm the methodology used to start and stop shooting, from 2023 the CSFTA will provide clubs with air horns which must be used to start and stop shooting. One blast to cease firing, two blasts to commence firing.
- Pairs/threes of novice shooters should be avoided; instead these should be paired with experienced but not necessarily AA shooters.
- All rounds to start shooting at 10:30am to allow people from the Isle of Wight enough time to arrive.
- Rounds should be 40 targets, comprising 15, 25 and 40mm hit-zones only.
- With more than 40 shooters in attendance the shotgun start should still continue as normal but with the following format for the additional shooters: Where there are more than 40 shooters, but less than 47, pairs should be placed at lane 1 to follow on. Where there are more than 46 shooters, but less than 51, pairs should be made into 3s and spaced along the line on every odd numbered lane. Where there are more than 50 shooters but less than 60, pairs should be made into 3s and spaced along the line as evenly as possible. Where there are more than 60 shooters, additional 3s should be placed at lane 1.
- Use of the regional chronograph is mandatory and the fps for the pellet used must be recorded. See '*For Shooters' for specifics on allowances*.
- The zero-in range should have measured and marked paper targets of sufficient size at least at 25, 35, 45, 55 yards to allow the shooter to confirm their rifle's accuracy at the most popular ranges, the line and number of targets should be enough to cater for the numbers of shooters present without excessive queuing.
- In order to challenge both the experienced and novice shooter, clubs are requested to as far as is reasonably possible to adhere to the following BFTA and WFTF rules.
- The club should provide a list of entries and results from each round to the region's Competition Secretary. This can be done in electronic form.
- Toilets must be made available and presented in a clean and tidy state.
- Given the potential for bad weather during shoots, clubs are encouraged to provide free hot-drinks after the event.
- Host club marshal/s should have a ratified target tester with them on the day of the competition (as supplied by Brian Samson or Maestro) for checking queried targets.
- Marshalls should be clearly visible by wearing a high-vis jacket or tabard.

CSFTA FT Winter League Shoot Rules 2023/4, v071123

Course Setting

- All targets should be clearly visible down to a height of 21cm as measured at the centre of the gate.
- Targets are to have:
 - Yellow faceplates with black hit-zones, or
 - Black faceplates with yellow hit-zones, or
 - White faceplates with black hit-zones, or
 - Black faceplates with white hit-zones
 - Royal Blue faceplate (only one colour blue may be used on a course, use 'dell' logo as an example blue) with white hit-zones.
- Reduced (25mm) and Mini (15mm) hit-zones:
 - 7 in total allowed (2x15mm and 5x25mm) includes no more than 2 x 25mm for positionals: so 1 out of 4 standing, 1 out of 4 kneeling
 - Max of two 15mm to max distance of 25yds.
 - 15mm targets should be positioned no more than +/- 2metres from the feet of the competitor standing at the gate.
 - 15mm hit zones are only allowed on freestyle (not discipline lanes)
 - All other reduced diameter hit-zones shall be 25mm, a maximum of 5 set out to maximum of 35 yds.
- Discipline targets (enforced kneeling or standing lanes)
 - Only one target in enforced kneeling or standing lanes may be 25mm hit zone set to a maximum distance of 20yds.
 - All targets in enforced kneeling or standing lanes should be to maximum distance of 45 yds.
 - The combined distance of the two targets in enforced kneeling or standing lanes may not exceed 70yds for kneeling or 60yds for standing.
 - The ground at the gate needs to be level and flat (not sloping)
 - The targets need to be visible from seated, kneeling and standing positions to allow for open shooters or those who are not able to kneel.
- For a balanced course, targets should be equally split between distances as suggested below:
 - ⊖ 8 targets = 20% @ 10-29yds (9-28m)
 - ⊖ 8 targets = 20% @ 30-39yds (29m-35m)
 - 8 targets = 20% @ 40-49yds (36-44m)
 - 8 targets = 20% @ 50-55yds (45-50m)
 - 8 targets = 20% @ discipline (kneeling and standing)
- Targets should be numbered clearly at the gate and as close to the target as possible.
- Wherever possible, targets should not be positioned where the low winter sun may be directly behind them.
- Any target 20yds or nearer should be parallel to the firing line.
- The ground should be level at the gate and take into consideration shooter comfort and also thought for left-handed shooters. A left-handed shooter has a different viewpoint and position than a right handed shooter.
- The firing line should be at waist height between lanes and at ground level inside them.

CSFTA FT Winter League Shoot Rules 2023/4, v071123

For shooters

- Any air rifle/pellet combination in compliance with BFTA MSR rules may be used, however, if the rifle is magazine fed this must, even if empty, be removed after each lane is shot, and when not cased, rifles must not be pointed in an unsafe direction or considered unloaded.
- Smoking/Vaping during the competition is not permitted.
- Timing per lane is 3 minutes, self-timed using the timers provided, from when sat down for sitting shots, or when entering the lane for kneeling and standing shots. In the event of a ceasefire All timers are immediately stopped, and any loaded rifles are fired into the ground in front of the shooters and across the firing line. Targets engaged after a ceasefire will not be counted and must be retaken. The timer will be reset to 2 minutes if 1 target remains and 3 mins if 2 targets remain.
- Once the competition has started, shooters, when not on the lane, should place their rifles in a bag or on a bean bag with the barrel over the firing line.
- Use of the regional chronograph is mandatory and the fps for the pellet used must be recorded.

- The BFTA has declared a maximum pellet speed for rifles of 5fps below the 12 ft/lbs limit (see table below).

Pellet Weight (Grains)	BFTA FPS	Legal Limit
7.9	823	828
8.4	795	800
8.6	785	790
10.3	718	723

- A minimum of one and a max of 3 registering shots will be allowed over the chronograph, one registering shot must comply with the above limit and no power adjustments are permitted once the competitor has started the competition. Failure of the rifle to comply will disqualify that rifle* for the whole event, but the shooter may complete the course if the fps measures over the **BFTA FPS**, but under the **Legal Limit**. **In either case the competitor's card is marked as void**. We cannot, for legal and insurance purposes, have anyone shooting over the 12ft/lbs legal limit.
 - *The competitor may not leave the firing line, but a replacement gun may be given to him/her and the faulty gun etc. removed from the course. The replacement rifle will be tested over the chronograph at the earliest opportunity. If the competitor's partner(s) are in agreement he/she may continue by sharing a rifle with one or more of them.
- Shooters wishing to contest a target must not pull the target's string but wait for a marshal to test the target with a target tester (ratified Brian Samson or Maestro only to be used). Targets which fail when the hit zone is tested top, middle and bottom are deemed to be operationally effective. Targets which fail to fall in any of the three checks are deemed operationally ineffective and must be removed from the competition, and all shooters will have this target voided.
- Shooters wishing to contest a target where they can see a crescent around any of the kill zone (ie an area that could be shot through) must call the target **BEFORE** attempting to shoot. If the target is called after an attempted shot, no point will be given and the shooter will not be allowed to retake the shot regardless of whether the target is re-positioned or replaced.
- Please use the pens provided by the CSFTA as these are specifically designed to write on the CSFTA waterproof score cards.
- Unless otherwise requested, participation in the competitions, will be taken as consent that shooter's names can be shared in results tables and photographs of shooters shared on the CSFTA's Website and Facebook pages.
- The shoot fee for WL FT shoots is £10.00.

CSFTA FT Winter League Shoot Rules 2023/4, v071123

Scoring

- Shooters may contest trophies in AA, A, B and C grades, Piston, Open and Sporter classes.
- Trophies will be provided by the CSFTA, typically three trophies will be awarded in all grades and classes. Where eligible entries are less than five, one less trophy will be awarded for the number of shooters.
- Open class shooters may take all shots from the bag.
- Hits (the hit-zone is hit and the target falls) are recorded with a "X" anything else is recorded as a "0".
- When the league dates are agreed then the amount of rounds an individual may drop will be agreed at the same time. If there is a change after this but ahead of the league starting then the clubs will agree a new figure of the amount of rounds that can be dropped. A guide is that more than 7 rounds will allow 2 rounds to be dropped, less than 7 will allow just one. Where rounds are cancelled the amount of dropped rounds may not change and where rescheduling can be difficult the round can be considered cancelled without a replacement.
- Non-regional shooters will have their scores removed from the scores supplied for grading. Their scores however will affect scores for individual and teams.
- Teams are of 6 shooters from the same club, with 4 to count, teams must be notified to the Competition Secretary prior to the start of the WL and may not be changed thereafter, multiple club teams may be entered.
- Anyone not in a club team can put their names forward to the Competition Secretary with a view that the Competition Secretary will create an extra "mixed team" from different clubs. Members must all shoot graded (not open).
- Team scores count for all rounds.
- All team members must take discipline lanes as specified (standing or kneeling).
- Team shooters whose scores qualify shall operate under the following scoring system:
 - Top or Equal Top score gets 1 additional point.
 - C Grade 4 additional points.
 - B Grade 3 additional points.
 - A Grade 1 additional point.
 - AA Grade no additional points.
- Where targets are found to be in breach of BFTA competition rules but not deemed unsafe they shall be included in the scores.
- Shoot-offs at the end of the season are timed, and conducted on a lane of the chief marshal's choice. The best of 2 shots kneeling and standing (best of 4 shots in total) should be the first round, if after that then there is still a tie the marshal will choose one of the targets to be shot standing in a sudden death shoot off (time allowed = 1 minute). This process is repeated until a winner is identified.

CSFTA FT Winter League Shoot Rules 2023/4, v071123

COVID-19 Guidance

As we learn to live safely with coronavirus (COVID-19), there are actions we can all take to help reduce the risk of catching COVID-19 and passing it on to others. These actions will also help to reduce the spread of other respiratory infections, such as flu, which can spread easily and may cause serious illness in some people. See the gov website for the latest information: <https://www.gov.uk/guidance/living-safely-with-respiratory-infections-including-covid-19>

Clubs should ensure that

- Booking-in takes place in a well-ventilated area, not an enclosed space such as a container.
- Hand sanitiser is available as determined by the club's risk assessment.

Shooters must not attend CSFTA shoots if

- They have a family member living in the same dwelling who has tested positive Covid-19 in the previous 7 days.
- They have tested positive for Covid-19 by lateral flow or PCR during the previous 7 days.
